

FORM FOR BLIND REVIEWING: Feedback to authors

1. Please rate the following: (1 = Excellent) (2 = Good) (3 = Fair) (4 = poor)

Originality	
Contribution to the field	
Reach to international readership	
Technical quality	
Clarity of presentation (including language proficiency)	
Depth of research (if applicable)	

2. Please, provide specific comments with reference to the following aspects. As regards sections, feel free to include comments (2nd column) for each section the manuscript may be divided in.

Title	
Abstract	
References (APA Style, 6 th edition) Are they updated and leading publications?	
Sections (please, type below the names/headings given to each section you find in the manuscript)	
Are the sections coherent?	
If the manuscript includes conclusions, are these connected to the contents which precede them?	
Please, include here any additional comments	

3. Final evaluation (reviewers' evaluations are final): Please mark as appropriate.

<i>My decision is to</i>	Mark with an X	(additional comments could be included here)
Accept as is		
Accept after introducing minor modifications (acceptance will be subjected to meeting those modifications requested by the reviewers)		
Revise and resubmit (this applies when modifications are major; if resubmitted, this should be indicated by the authors)		
Reject		
Submit to other forums (please suggest one)		

4. Editors' decision (ONLY TO BE COMPLETED BY THE EDITORS; Editors' decisions are final).

Based on the reviewers' comments and evaluation, our decision is to

the manuscript.
